

HMC Capital Recognized as Top Placement Agent by Preqin

HMC Capital stands out as the only placement agent in the Latin American region to have earned recognition in two distinct categories, including the top in "Funds Closed in Rest of the World".

September 25, 2023 – In the ever-evolving world of private capital, HMC Capital has again proven its mettle by securing recognition as a prominent placement agent for the fourth consecutive year. This remarkable achievement comes from Preqin, a leading source of data and insights in the private capital industry, and it encompasses not just one but two categories, reaffirming HMC's enduring commitment to excellence.

In an impressive achievement, HMC Capital distinguishes itself as the sole placement agent in the Latin American region, Brazil included, to have earned recognition in two distinct categories. The first emphasizes fund size and the other focuses on the number of funds managed, highlighting our exceptional versatility in catering to a broad spectrum of investment portfolios. What truly sets us apart is our unparalleled distinction as a 'Prominent Placement Agent by Funds Closed in Rest of the World.' This remarkable recognition underscores our exceptional status and reputation in the industry.

Every year, Preqin releases rankings that identify the industry's top firms in its annual "Service Providers in Alternatives" report, widely read by thousands of professionals in the investment field. This report is a definitive guide for investors seeking trusted partners in the ever-expanding landscape of alternative investments.

This recognition is evidence of our ongoing commitment to excellence and bringing our clients the best alternative investment opportunities. It's a testament to HMC's in-depth industry knowledge, extensive network, and the trust it has built with

clients. We take great pride in being acknowledged among industry leaders and consider this achievement as recognition of our customer-centric approach.

"This recognition reflects our entire team's hard work and dedication in delivering exceptional investment solutions to our clients. We will continue to strive to exceed expectations and remain at the forefront of the alternative assets industry," stated Ricardo Morales, Co-founder and Executive Chairman at HMC Capital. "In Brazil, the appetite and allocation toward Alts continue to escalate, featuring Family Offices and Private Banks as critical players. This is how, at HMC, we believe that through Private Banks and platforms, we can continue to play a strategic role in expanding the investor base in the region," commented Agnaldo Andrade, Partner and Head of Brazil at HMC Capital.

HMC's historical success is a story of collaboration, trust, and unwavering dedication. Its ability to work with internationally recognized General Partners and provide clients with compelling investment opportunities has resulted in remarkable growth, with client commitments in Alternative funds exceeding 2.5 times the previous levels over the past five years. As a reference, in 2022 and so far in 2023, we have closed US\$ 2.3 billion. As HMC Capital charts its course for the future, it remains focused on setting new industry standards and helping clients achieve their investment goals in the ever-evolving world of private capital.
